The Range

RETRACTABLE BANNER STAND RANGE

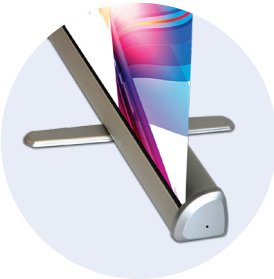

GOOD

Economy (left) and **value** (right) retractable banner stands are the most widely used due to their ability to display full-size graphics on a budget. They are lightweight and portable and are well suited for short-term or widespread displays.

BETTER

Mid-range retractable banner stands - also referred to as **performance** (left) or **professional** (right) - offer upgraded internal components for frequent and extended use. Sturdier and heavier in weight, these stands offer upgraded hardware and aesthetics.

BEST

Premium retractable banner stands offer heavy-duty internal components and a premium appearance finished with chrome-effect end caps. Offered in five heights, six widths, three leader attachment options, three different bags, and either single or double-sided, these banner stands offer an option for every customer.

Strike Series

A GUIDE TO NAVIGATING OUR PREMIUM SERIES

To narrow down the available options, we recommend starting first with desired graphic height. Available graphic heights range from 32" up to 120" tall. Graphic heights are achieved with fixed or telescopic poles.

Secondly, determine the width of the base required. Base widths range from 24" to 60" wide.

Choose between three different base types, and three carry bag variations. Availability varies per product; see individual product pages for more details.

TENSION BANNER STAND RANGE

ADJUSTABLE BACKDROP

Telescopic vertical and horizontal supports allow for a variety of graphic sizes. These displays can be quickly assembled and are often used as backdrop solutions.

X-BANNER

Lightweight and inexpensive, these banner stands are easy to use and hold grommeted banners. Popular applications include retail and showroom advertising.

L-BANNER

Clamp bars offer quick banner installation and easy graphic changes. The graphic remains attached to the clamp bars when disassembled and stores together in included carry bag.

ADJUSTABLE H-BANNER

These displays offer a variety of graphic sizes with a telescopic center pole and adjustable bottom clamp fitting. With quick assembly and a small footprint, the potential applications are extensive.

EXHIBITION SYSTEMS RANGE

FREE-STANDING

Lightweight and sturdy framework with simple assembly, these freestanding displays are perfect for retail and other public spaces. A variety of widths and heights are available for maximum visual impact.

BACKDROP

Both push-fit and pop-up frame options provide great options for applications where a larger graphic display is required. Often used as booth backdrops or step-and-repeat media walls.

PODIUM

Whether it's part of a trade show booth, or a stand-alone kiosk setting, a strong and stable counter is very versatile and can serve many purposes. They are often used along with a backdrop for a complete booth set-up.

RANGE OF INFORMATION DISPLAYS & SIGNAGE

SURFACE MOUNTED

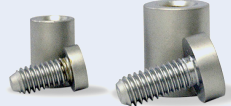

Fastened to the wall or window, surface mounted displays are an ideal way to utilize overlooked surfaces within your establishment to increase awareness of your message or promotion.

FREE-STANDING

Signage that can be placed just about anywhere with available floor space, from aisles to entrance ways. These sturdy, independent displays offer easy-to-change replacement graphics. Get your message seen, switch it up, or move it around with long-lasting freestanding displays.

STANDOFFS

Create beautiful signage installations by using sign standoffs or lettermounts to layer signage and hold it away from the wall.

Ruby

SNAP FRAME

- Front-loading snap frame
- Available in a silver or black finish
- Includes wall fixings and a protective graphic cover
- Made in Turkey

NOTES

Pair the protective graphic covers with vinyl or poster paper. Remove protective graphic covers when using 20pt styrene. Does not accept corrugated plastic sheet.

Units 48" in height will acquire freight overages. They are recommend to be shipped by LTL carriers.
